

Ceska Sporitelna Launches a New Mobile Application – MŮJ STAV – For Displaying Product Information Quickly, Securely, and Easily

- ⇒ **The MŮJ STAV (My Status) application supplements the purely transaction-based SERVIS 24 Mobile Bank application. It passively displays the balances of all savings products quickly, easily, and securely.**
- ⇒ **The MŮJ STAV application is designed for the Android 4.0 and iOS 7 operating systems, and is conditioned on the client having the SERVIS 24 Internetbanking service activated.**
- ⇒ **Ceska sporitelna has added a new function to its SERVIS 24 Internet banking – the possibility of displaying one's payment card PIN and to request that a PIN be sent for a new or substitute card.**

As of today, clients of Ceska sporitelna can download and use the new mobile application MŮJ STAV. With it, they will have all their accounts under control at all times. The MŮJ STAV application passively displays the balances of all savings products quickly, easily, and securely, supplementing the purely transaction-based SERVIS 24 Mobile Bank application. The MŮJ STAV application is designed for the Android 4.0 and iOS 7 operating systems, and is conditioned on the client having the SERVIS 24 Internetbanking service activated.

The application is only designed for viewing one's account and the other products one uses: card accounts, loans, mortgages, building savings, supplementary pension insurance and supplementary pension savings, life insurance, investment accounts, and asset accounts. The application can be used like a regular mobile banking application, except that no transactions can be executed in it. It is possible to view one's account transaction history, filter individual transactions, and display their details. Sporitelna's intention was to make everything as clear and intuitive as possible. The preview shows the counter-party's account number, notes for the recipient, variable and other symbols, and it can be shared by SMS, e-mail, and messaging applications. The account balance can be displayed on the client's desktop without him having to launch the application.

Clients can also choose their log-in method and level of security. Clients can log in by using a PIN, gesture, or fingerprint, or leave it without a password. The application also features useful contact information for the bank, such as important telephone numbers and e-mail addresses.

Přehled produktů	
Osobní účet České spořitelny 1234567890/0800	48 730,50 Kč
Kartový účet 82122-1234567893/0800	35 480,00 Kč
Hypotéka České spořitelny 987654321 / 0800	-2 173 284,00 Kč
Investiční cizoměnový účet 9876512345 / 0800	12 721,20 €
Penzijní připojištění	241 359,10

Ceska sporitelna has also newly introduced in its **SERVIS 24 Internet banking the possibility of displaying the PIN of one's payment card and the possibility of requesting a PIN for one's new or substitute card to be sent electronically**. A PIN can be displayed in the SERVIS 24 Internet banking only to authorised cardholders who log in with an authorisation SMS or client certificate. It is not possible to change the PIN in Internet banking, and the time for which it is displayed is limited, to prevent access by others in case the client leaves his computer. The displaying and sending of a PIN via Internet banking is free of charge.
